1954
of MISSISSIPPI STATE COLLEGE

In Memory of . . . .

Fred Tom Mitchell, native Mississippian, educator and skilled administrator, devoted his entire professional life to the service of his fellowman. He gave unstintingly of his time and energy to promoting the cause of higher education. He served his Alma Mater, Mississippi State College, as president from 1945 until ill health caused his retirement in 1953. At all times he placed unselfish service above fame in his devotion to worthy causes.

DEDICATION . . .

For his life-long devotion to Mississippi State College, for his abiding faith in the values of higher education, for his ability to look into the future without overlooking the present, for his genial sincerity manifest in every well-selected phrase, for his astuteness and courage in critical times, for his profound conviction that well-trained college men and women can solve the problems of tomorrow, for his personal concern for us as persons, we dedicate this 1954 REVEILLE to Ben F. Hilbun—our own Mr. Ben, President of Mississippi State.

TO

MR. BEN F. HILBUN

THE PRESIDENT

MR. BEN F. HILBUN

To the Class of 1954:

You are about to go out from the halls of your Alma Mater to take your place in the ranks of American citizens. That you have a deep inner pride in a consciousness of adequate preparation for your chosen work is a source of satisfaction to the people of Mississippi State College who have been privileged to know you and to work with you. As you leave our campus you will carry with you our best wishes and a full measure of confidence and faith in your ability to succeed in whatever endeavor you may engage in.

Since entering Mississippi State College you have been a very important part of it. You have helped to make its history during your student days, and you will demonstrate its value by the quality of your lives after you leave it. The great heritage which you enjoy should inspire you to return to the state and to your nation a reasonable remuneration in public services.

It is with a sense of pride that we recognize the contribution that our graduates have made in the development of our state. The money invested in them is now returning large dividends to Mississippi in dollars and services. The Alumni, whose ranks you now join, have proved the value of technical and cultural education in a practical and realistic world.

We trust that you will always be delighted to speak well of your Alma Mater; to credit it with having had a part in your individual development; and, in appreciation for that contribution, to be a proud and worthy citizen of a state that is proud to lay claim to you.

There are great challenges before you. The call now is for character and leadership that are capable of creating wealth for the happiness of our people. The engineer, the agriculturalist, the scientist, the business man, and the educator are obligated to society to use their skill and their power of direction for the welfare of mankind. It, therefore, becomes necessary for you to face the future with a courage and daring befitting the confidence you have in your own preparation for life.

We are proud of your accomplishments here. Meeting the qualifications for the coveted degree which you have sought was not accomplished by accident, but by application to duty. We congratulate you upon your achievement and share with your relatives and friends the pride they have in you.

When you pass out of our gates you will leave a part of yourself on the campus, and as you go forth into the world you will take a part of Mississippi State with you. There will be the inevitable urge to return, and we wish to assure you that the gate will be open by day and the light will burn in the window by night as a token of welcome to the scene of your student days where destiny walked unseen with you in that rich and happy preparatory period of your life.

May every good fortune attend you and the highest possible measure of success be yours as you unfold your dreams through your professions in a world that is proud to claim you and to rest upon your shoulders the heavy responsibilities reserved for your day and generation.

Sincerely yours,

BEN HILBUN
President

DR. T. K. MARTIN
Administrative Assistant and Registrar

Dr. Martin graduated from Georgetown College, received his Master of Science Degree from Louisiana State University, and his Ph.D. at Peabody College.

Dr. Martin's work consists of seeking new students for State College, assisting the students already enrolled, and serving as administrative assistant to Mr. Ben Hilbun, President of the college.

THE COLLEGE

MR. L. F. MALLORY
Comptroller

Mr. Mallory graduated from Mississippi State College and received his graduate work at Louisiana State University.

He has served the college as comptroller for the past ten years, during which time the financial welfare of the college has been in very capable hands. He has a very competent staff to assist him in performing the duties of the comptroller's office.

DR. D. W. AIKEN
Dean of Student Affairs

Dr. Aiken graduated from the University of Mississippi, received his Master of Science Degree at Colorado A. & M., and his Ph.D. from Ohio State University.

Dr. Aiken is well known for his ability to take a personal interest in the problems of the students, whether they be great or small; personal or otherwise.

ADMINISTRATION

MR. BOB WILLIAMS
Alumni Secretary

Mr. Williams received his Bachelor of Science Degree from Mississippi State College and his Master of Science Degree from the University of Mississippi.

Mr. Bob, as he is known to students, alumni, and his many friends, is head of the Division of Graduate Personnel and Alumni Secretary. His office serves as an information center for alumni, students, and visitors to the campus.

SCHOOL *of* AGRICULTURE

Training programs in the School of Agriculture have as their purpose the preparation of students for better citizenship and for more efficient farm operation, for scientific investigation in the various specialized fields of agriculture, for professional service work, for teaching agriculture, and for various fields of business in which a knowledge of scientific agriculture is of value. Not only does the School of Agriculture consist of eleven departments, but various programs of instruction in agriculture are made more practical by combining field and laboratory exercises with classroom work.

The resident staff of both the Experiment Station and Extension Division of the College offer valuable opportunities for students on the undergraduate and graduate level to broaden their contacts with professionally trained personnel other than the regular teaching staff.

Although many burdens of administrative duties rest on Dean Clay Lyle's shoulders, the students in this school know him not only as a teacher and advisor, but also as a personal friend.

EXPERIMENT BUILDING

BUSINESS EDUCATION BUILDING

SCHOOL *of* BUSINESS *and* INDUSTRY

The School of Business and Industry, organized in 1915, is one of the oldest college schools of business in the state and one of the oldest in the South. Since its beginning, one of its major activities has been that of a service division to the other schools on the campus. Through the School of Business and Industry, necessary business and social science training is provided for the Schools of Agriculture, Education, Engineering, and Science.

The School of Business and Industry is a professional school which combines a general education and business administration program with intensive training directly applicable to positions in the following business fields: accounting, business administration, institutional management, commercial aviation, industrial management, banking, merchandising, production management, secretarial science, public administration, economics, and journalistic administration.

Above all, Dean Weems is always happy to give his expert advice to all who seek it and keeps the interest of his students at heart.

SCHOOL OF EDUCATION

The School of Education is a professional school which functions primarily for the purpose of providing both pre-service and in-service education programs to meet the needs of students who are interested in teaching in the elementary and secondary schools, in serving as school administrators, in qualifying for coaching athletics, and in serving as school counselors.

In addition to being fully accredited by both the Southern Association of Colleges and Secondary Schools and state accrediting agencies, the School of Education maintains standards which enable its graduates to satisfy the requirements of the Mississippi State Board of Education for obtaining professional teaching and administrative certificates.

The School of Education consists of seven departments, which are as follows: Adult Education and Extension Teaching Service, General Education, Guidance Education, Homemaking Education (graduate work only), Industrial Education, Physical Education and Coaching, and Resource-Use Education.

Dean Brooks is never too busy to offer his services to any student.

TEXTILE BUILDING

PATTERSON ENGINEERING LABORATORY

SCHOOL OF ENGINEERING

The School of Engineering includes the Departments of Aeronautical Engineering, Civil Engineering, Drawing, Electrical Engineering, Mathematics, and Mechanical Engineering. The degrees of Bachelor of Science is offered in Applied Mathematics, Aeronautical, Agricultural, Civil, Electrical, and Mechanical Engineering.

The demand for men and women with engineering training is very great. The need for engineers is steadily increasing, especially for graduates of accredited schools.

The staff of well trained experienced instructors, the improved facilities such as the new Patterson Engineering Laboratories, assure the student of the attention and interest he will need to achieve the training and competence he will acquire in the four-year course leading to the degree of Bachelor of Science.

Dean Flinch is always ready to assist any student in any problems which may occur during the year.

H. V. FLINCH
Dean

BIOLOGY BUILDING

SCHOOL *of* SCIENCE

M. P. ETHEREDGE
Dean

The School of Science is somewhat comparable to a School of Arts and Sciences in a Liberal Arts College. Not only are all phases of natural sciences, biological and physical, and pre-professional work taught, but one can also get a curriculum in English and in almost any option in the social sciences. No one need be turned away because of a lack of appropriate studies, or because he has not yet decided on his life's career.

In the field of natural sciences there are curricula in Bacteriology, Botany, Chemistry, Chemical Engineering, Geology, Geography, Mathematics and Physical Sciences, Petroleum Geology, Physics, and Zoology and Entomology. In addition to English there are options in the social sciences: History, Political Science, Philosophy and Religion, and Sociology.

Dean Etheredge is always there when needed and is willing to do anything he can to help his students.

LIBRARY

GRADUATE SCHOOL

The Graduate School, headed by Dean Drennon, has established a record of very high standards within the School. The new Library plays a major part in the life of the graduate student, for it is there that many unforgettable hours are spent in research and study for the thesis.

The courses leading to the degree of Master of Science are many. For example, there are courses in Natural Sciences, Agriculture, Business and Industry and Education.

HERBERT DRENNON
Dean

ACTIVITIES

THE STUDENT

The Student Association of Mississippi State College is the executive governing body of the students. Each school elects, according to its constitution, representatives to the Student Association who are vested with the powers to vote on all problems in the interest of their respective schools. Other members of the Association are the staff heads of the Reflector and REVEILLE.

The three-fold purpose of the Association is to bind all students in a stronger union and develop a keener sense of school spirit, promote closer relations between faculty and students, and to build a greater Mississippi State College.

This association is governed by the Executive Committee composed of the President, Vice-President, Secretary, and Treasurer. These men are elected annually by the student body.

The Vice-President is also charged as Chairman of the Dance and Entertainment Committee.

THE 1954

It's interesting to watch how the REVEILLE goes to press. Some wonder not only how, but why. However, we shall discard the uninitiated from the realm of surrealistic nonsense, and peek through the transom at the brain-work that is putting the baby to bed.

The editors are gathered around a Ouija Board. The managing editor walks in and everyone starts laughing. He swells with pride, thinking he said something funny until he remembers he hasn't opened his mouth.

At this point, the business manager walks in with dollar bills sticking out of all his pockets. He is followed by the advertising manager who has five dollar bills sticking out of all his pockets. After all, Ben is a P-550 student. The rest of the business staff is late. They can't find any place to park their Cadillacs.

The boss, "Simon Legree" Spruill, cracks his whip over the heads of the editorial staff to break up the crap game and the meeting is underway. The snapshots are being put on copy sheets. Someone breaks the bottle of Best-test rubber cement (Reg. U. S. Pat. Off.; guaranteed not to wrinkle, curl, or shrink). The snapshot editors go to the grill to have a "big orange."

After a while, someone thinks of an idea for the division pages. It stinks! They throw it out. They're getting nowhere, fast.

Soon, a staff member leaves. He should have done this a long time ago. The others continue beating their heads against the wall. They're hanging a M.M. calendar and have lost the hammer.

The Closs Editors

REVEILLE

The staff member returns. He is loaded with ideas. Wonderful ideas but we can't quit and go to the crossroads now. The editors are dumbfounded. Or did they just find out that they were dumb?

More advertisements, pictures, write-ups, etc., come in. So do a few coeds. The art editor comes in. The coeds leave.

. . . and so it went every Wednesday night at the REVEILLE meeting. Do you still wonder how the REVEILLE got to press and then to you? Well, so do we, but here it is and we hope you like it.

Largest Freshman Enrollment in History . . . "Big Name" Bands Play for Student Association Dances . . . Former President Dies . . . All-American Jackie Parker Quarterbacks Maroons to Best Season in Years . . . Darrell Royal Succeeds Murray Warmath as Head Coach . . . 500 Students Honored at Scholarship Day . . .

So read the headlines for a few events reported by the 1953-54 Reflector, official voice of the Mississippi State College Student Association.

Little similarity exists between the weekly Reflector of today and "The Dialectic Reflector," monthly tabloid "devoted to Literature, Science, and Industry," which first appeared in 1884.

Although hampered by a lagging interest in journalism and by the absence of a school journalism department, Volume 66 of the Reflector held its own competing against papers from other schools. It was a modern, up-to-the-minute newspaper, with Associated Collegiate Press service and complete campus coverage.

Editorially, the 1953-54 Reflector fought unofficially to promote increased interest in student government and student affairs. It reported campus elections, student politics, and Student Council activities. It set something of a precedent in coverage of "touchy" news events, recording in detail the Student Council war against vandalism.

The business staff also set a precedent, selling enough ads to finance more eight-page issues than in any recent years.

COMMITTEE

In doing an excellent job of contracting fine bands for the concerts and dances, Dewitt Hicks made our social calendar one that will be long remembered. The Dance Committee, being one of the hardest working groups on the campus, came out with some fine backdrops for the Cafeteria bandstand and made the tickets for the dances readily available for those who cared to purchase them.

Buddy Morrow was brought to State for the Opening Dance and his "Big Beat" gave us some fine entertainment. Ray Anthony returned by popular demand for the Mid-Winter Dance and received a warm reception from the students. Ralph Marterie played for the Closing Dance, which ended a fine year of entertainment. We praise the Dance Committee for their fine work.

BOARD OF PUBLICATIONS

The Board of Publications serves in a governing capacity, basically though it renders a great service to the publications of the student body in practical solution to problems presented by the editors of each publication.

The Board is composed of three faculty members, the president of the Student Association, the editor of the REVEILLE, the editor of the Reflector, and the two Business Managers of the publications. The editors of both publications of Mississippi State must at all times follow the jurisdiction of this board.

It also assists the institution in dicharging its obligation of offering instruction in Military Training for two years to all physically qualified male students. Since the Air Force does not have a national academy like the Army and Navy, the Air Force ROTC program is expected to supply eighty percent of the yearly requirement for Air Force Officers by 1955.

In the light of existing world tension and uncertain conditions the role of the Army ROTC program continues to be as important as it has ever been. The unit at Mississippi State College has again met the challenge of providing its share of outstandingly qualified military students. A number of her officers commissioned through the Army program are carrying heavy responsibilities of military leadership in various parts of the world where United States troops are stationed.

Scabbard and Blade is a national honorary military society. Active membership is limited to men in advanced ROTC who meet certain academic and military qualifications.

The major objectives of the organization is to promote a feeling of unity among the cadet military leaders and to maintain a higher standard in the military activities of the corps of cadets.

B Company, 7th Regiment of State, awards two medals, one to the outstanding Senior cadet, and one to the outstanding Junior cadet each year.

The Scabbard and Blade Drill Team is well known for their precision drills and double quick marching step.

Established at Mississippi State College on April 17, 1937, Alpha Tau Omega is the first fraternity to be nationally and internationally incorporated. It has spread to 116 chapters in Canada, the United States, and Hawaiian Islands. The purpose of Alpha Tau Omega is expressed in this sentiment:

"No north, no south, no east, no west
but one great nation, heaven blessed."

The fraternity was founded on Christian principles. Members find true brothers here and where other chapters or alumni associations are located. The winner of the annual Homecoming Display Contest for three years previous, Alpha Tau Omega works to promote the college. An active participation is made in the intramural sports program. The social life of Alpha Tau Omega and its friends provide year-round entertainment, topmost being the annual Blue and Gold Ball, at which time our Sweetheart is presented.

The Kappa Alpha Order had its origin in a fraternity organized by students at Washington College, Lexington, Virginia, in December, 1865, soon after General Robert E. Lee became president of that institution. Since its inception the Order has grown to 76 active chapters with a membership of 36,000. Beta Tau blossomed forth on this campus from a distinguished social military group called Lee Guards in 1927. The flowers of Kappa Alpha are the magnolia and red rose. And in the gardens of Kappa Alpha blooms many a beautiful flower . . . ours being Miss Betsy Butchee, of Columbus, Mississippi. We always usher in the Yuletide Season with our annual Christmas Party and look forward in the Spring to the Black and White Ball. One will find true Southern hospitality at our home in Colonial Heights.

The new colonial mansion on Fraternity hill, better known as the Kappa Sig White House, was completed early last fall with housing accommodations for thirty-six men. They are proud of their beautiful home and welcome anyone who wishes to attend their many social events. They are very active and among the leaders in I.F.C. and campus activities. The school year was climaxed by their annual spring formal.

Lambda Chi Alpha is the largest college fraternity in the world with 144 chapters in the United States and Canada. It is a young, vigorous, enterprising fraternity that has shown remarkable development and growth since its founding in 1909 on the campus of Boston University. While the youngest of leading fraternities, it is recognized everywhere as a leader in the Greek world. The local chapter of Lambda Chi is Epsilon Chi Zeta, which is located in its recently purchased house at 508 East Main Street.

The Phi Kappa Tau fraternity has traditionally ranked high in scholarship. Ever since 1939, the chapter has ranked no lower than third on the campus, among Greek letter organizations, in scholarship. In 1950, Alpha Chi took the national trophy for the highest in scholarship of all the Phi Kappa Taus. A series of victories were won by the Phi Taus on Homecoming Day. On that day, the chapter nominee for Homecoming Queen won and also the chapter display won first prize. The chapter also sponsors a number of social events each year. These include a Spring Formal, an annual party at the Henry Clay Hotel in West Point, Mississippi, a house party each spring, and numerous other parties and banquets throughout the year.

The brick house on fraternity row has become dear to the hearts of the men of Pi Kappa Alpha. Its halls and lawns will always hold fond memories to the men who wore the shield and diamond at Mississippi State. The Pikes are always active in campus activities and in interfraternity sports. They take part in such extracurricular activities as REVEILLE, REFLECTOR, Student Government, and many campus clubs and organizations. The men of Pi Kappa Alpha always try to maintain a high scholastic mark among its members and pledges. This aim has been achieved in the past and 1954 can be thought of as no exception. Social highlights of the year for the Pikes of Gamma Theta Chapter is the annual Dream-girl Banquet and Ball. This event, a gala affair, is usually held on the M.S.C.W. campus. Dances, dinners, luncheons, and other parties are held throughout the year. No party at the Pike House would be complete without the gracious hostess, Mrs. C. L. Claiborne.

The Sigma Alpha Epsilon fraternity was founded on March 9, 1856 at the University of Alabama. Within the past 98 years, this fraternity has expanded nationally until there are now 136 chapters in 46 states, and approximately 90,000 members. The fraternity colors are purple and gold, and the flower is the violet.

The S.A.E. Chapter at Mississippi State was founded in 1887, but became inactive in 1893. With the aid of Dr. William Flowers Hand, it was again reactivated in 1932. In 1947, the first fraternity house at Mississippi State, located on Nash Street, was bought by the S.A.E. Chapter.

Among the outstanding social functions of the fraternity is the "Pledge Dance" held in the late fall. The main social event is the annual "Black and White Ball" which is held in the early spring. At this event the sweetheart of the fraternity is crowned.

Each year the S.A.E. Chapter at Mississippi State gives a partial scholarship to an outstanding, needy student, who is selected by college officials.

The Gamma Upsilon Chapter of Sigma Chi was chartered from the George Rifles, the social organization of its day, in 1938. Since then the local Sigma Chis have been among the tops in campus activities, intramural sports, and scholarship. Dominating the Inter-Fraternity Council Sports for nearly three years, they lost last year to the Kappa Sigma fraternity. However, they are leading in the I.F.C. sports race this year.

This year the Sigma Chis started the year with a very successful Rush Season, pledging 56 freshman and transfer students. Well represented in campus clubs and organizations, the Sigs have men in nearly all the honorary fraternities and campus groups. With total membership, members and pledges, over 100 in number, this chapter stands fourth on the campus, scholastically speaking, and 17th among other Sigma Chi Chapters in the nation.

The Sig Eps have grown to be one of the largest of the national fraternities with well over 40,000 members in 125 chapters. The "House With a Heart" is located on College Drive and is the center of activity for the Sig Eps. The social calendar each year is filled with many informal dances, parties, and get-togethers. Highlighting the social season is the "Queen of Hearts Ball" in the college cafeteria each spring. At this time the Sig Ep Sweetheart is presented. The Sig Eps are very prominent in campus activities. We now hold the District Governor's Trophy for having the most outstanding Sig Ep chapter in District Seven, composed of four southern states.

The Theta Xi's are enjoying the well furnished rooms in the bottom of Main dormitory. Just recently, they have added to their rooms with a game room containing all the facilities for a good time. They are very active in all I.F.C. and campus activities. The rooms are always open and visitors are always welcome. They hope to have a house on the campus before long.

The Panhellenic Council at Mississippi State College serves as the governing body for the two sororities. It is composed of the president and vice-president of each sorority. The president of the council is the president of one of the sororities, alternating each year. It is the duty of the Panhellenic Council to set up new rush rules or amend the old rules. A tea for all coeds is sponsored by Panhellenic at the beginning of each fall semester.

CO-ORDINATORS OF AFFAIRS

Chi Omega . . .

The Chi Omegas have been active on college campuses since their founding in 1895. Phi Delta has taken its portion of honors this year as in the past. Among its activities, Chi Omega is sponsoring a Song Fest in the spring in which all Greeks are urged to participate. It also has the highest scholastic standing of all the fraternities and sororities on the campus. Chi Omega captured the title of Homecoming Queen, and had two maids in the court.

Able Sub Quarterback Paces State Win 26-13

Baton Rouge, Nov. 14—Bobby Collins took over for Jackie Parker in the second period to lead the Mississippi State Maroons to a 26-13 triumph over LSU. A homecoming crowd of 32,000 fans watched State take its third SEC victory.

With the score tied 6-6 at the end of the first quarter, Parker drove his team to the nine where he received a broken cheekbone but he remained in the game to see the Bulldogs come ahead 13-6.

State College, Nov. 28—Mississippi State, led by All-American candidate Jackie Parker, came from behind to tie the favored Ole Miss Rebels 7-7 this afternoon in a game witnessed by more fans than any other sporting event in the state.

Over 35,000 saw State's injured quarterback, Parker, don a plastic mask to protect his crushed cheekbone, and pilot the Maroons to a moral victory over their arch rivals.

Parker hit for nine of nine passes, one of them to Arthur Davis for the Bulldogs' score. After the touchdown, Parker calmly booted the ball squarely between the uprights for the tying point

TRACK AND FIELD

The 1953 track season was one of the most successful seasons ever experienced by a Maroon track team. With a nucleus of seasoned performers the Maroon thinclads defeated Ole Miss, Alabama, and Vanderbilt in dual meets. Next, the team traveled to Baton Rouge and indulged in a quadrangular meet with L.S.U., Tulane, and Mississippi Southern. In this meet, the Maroons came out second best behind the perennial powerful L.S.U. Bengals. Tulane and Mississippi Southern supplied the show and also ran contingents.

The Maroon tracksters participated in the Southern Relays at Birmingham and held their own with the top track and field performers of the nation. This meet brings together about 1,000 athletes from all over the U. S. and it is sprinkled with Olympic participants.

Again the State trackmen ventured to Birmingham to take part in the Southeastern Conference meet on May 15 and 16 and again the team came through with honors. Elmo Branch and Jerry Simmons were crowned Southeastern Conference champions in the pole vault and high hurdles respectively, and they earned second place laurels in the high jump and low hurdles to rank with the top scorers of the meet. State finished fifth in a field of twelve in this gold medal meet of the year.

GOFF

The Maroon Netters of 1953 were even better than the 1952 squad, again winning the Mississippi Intercollegiate Tournament. This time, they completely outclassed Ole Miss and Southern in the finals, winning 24 out of a possible 27 points.

This is the third time in four years that Coach Sawyer's squad has won the intercollegiate tournament.

Joe Pearson retained his title as Intercollegiate Singles Champ, as did Ruben Padro in the No. 2 spot. They paired to retain the doubles crown also.

Bobby Collins won the No. 3 trophy and paired with Roy Williams to win the No. 2 doubles.

George Trava won the No. 6 singles championship. He and Vincent Scoper took the No. 3 doubles, thus giving State a clean sweep in doubles competition.

In dual meets, the Maroons fared well, too, winning ten and losing three. They defeated Alabama, Auburn, and Memphis State twice each, took single decisions from Loyola, Delta State, and Mississippi College.

The losses were to Indiana University (Big Ten Champions), L.S.U. and Florida.

Freshman George Trava, of the Yucatan, set a varsity record by finishing the season without a defeat in singles competition.

Collins, Scoper, and Trava will be the only ones on hand for the 1954 tennis campaign.

Omicron Delta Kappa, National Leadership Honor Society for men, was founded in 1914 at Washington and Lee University, Virginia. The Alpha Chi Circle, the local chapter, was installed in May of 1937.

The three-fold purpose of O.D.K. is: First, to recognize men who have attained a high standard of efficiency in college activities and to inspire others to strive for conspicuous attainments along similar lines. Second, to bring together the most representative men in all phases of collegiate life and thus to create an organization which will help to mold the sentiment of the institution on questions of local and intercollegiate interest. Third, to bring together members of the faculty and student body of the institution on a basis of mutual interest and understanding.

Its members are selected from junior and senior classes on a quality basis of personal character, scholastic record, prominence in student activities and service rendered to the institution. The order is a respected member of the American Association of College Honor Societies and has become the most coveted honor organization of the campus.

Recognized as the highest honor which a Mississippi State College man can win, membership in Blue Key National Honor Fraternity is awarded only to men who have distinguished themselves as leaders in scholastic and extra-curricular activities, and who have excellent character and personality.

But Blue Key is more than an organization of recognition—it is also a service organization. Living up to the Blue Key motto, "Serving I Live," its members ever try to solve the problems of the college community and achieve cooperation between administration, faculty, and student body. The Blue Key Pledge affirms belief in God; loyalty to college, community, and nation; and support of the high principles of Blue Key.

Blue Key was founded by Maj. B. C. Riley at the University of Florida in 1924, and now has 92 chapters. The Mississippi State College Chapter was established in 1928.

Alpha Epsilon Delta is the National Premedical Honor Society. It was founded at the University of Alabama on April 28, 1926.

The object of the Society is to encourage excellence in premedical scholarship, to stimulate an appreciation of the importance of premedical education in the study of medicine, to promote cooperation and contacts between medical and premedical students and educators in developing an adequate program of premedical education and to bind together similarly interested students.

The motto is incorporated in the name: Alpha Epsilon Delta—Truth I Pursue.

Colors of the Society: Red and Violet.

Flower: Red Rose.

Alpha Zeta is a national honorary agriculture fraternity. It is one of the oldest honorary fraternities on the campus, being established here May 12, 1928. Alpha Zeta participates in High School Day, Homecoming Contest, Diamond Jubilee Parade, and Spring Festival. This year, A.Z.'s Silver Anniversary Banquet was held with Mr. Ben Hilburn as guest speaker. Members are tapped each semester from undergraduate and graduate agricultural students of high scholastic achievement and on the basis of character, leadership, and personality. Alpha Zeta presents a plaque to the Outstanding Freshman in Agriculture each year with the aim to encourage scholarship and leadership among freshmen.

The Colonel's Club is the official hospitality committee of Mississippi State College. The membership is composed of two representatives from each fraternity and sorority, and eight independents—the only requirement being that they be a second semester freshman or first semester sophomore. During the initiation period the high hat, black suit, bow tie and cane, symbolic of the services offered by the club, are a familiar sight to the student body. Membership in the club also entitles the individual to points toward membership in Omicron Delta Kappa—honorary leadership fraternity. Keeping with the purpose of the organization, information booths have been set up on the campus for High School Day and Homecoming. Assistance was also offered at the annual Cake Race. An annual project of the club is to sponsor the March of Dimes Drive on the campus. Money is raised for the March of Dimes through a Talent Show given in January.

Phi Eta Sigma is a freshman honor society. It was founded in 1923 to encourage and reward high scholastic attainment among the men members of the freshman class. There are now fifty chapters located in leading colleges and universities throughout the United States. In 1937 the organization was admitted to membership in the Association of College Honor Societies.

Eligibility for membership is based solely on scholarship. All freshman men who earn a scholarship average equivalent to or better than one-half of the highest grade and one-half of the next highest grade in their first quarter, term, or semester of college will be elected. Membership is also extended for achieving the same minimum average on the basis of an entire first year's work.

Epsilon Iota Chapter of Alpha Phi Omega was established at Mississippi State College in 1940. Any man on the campus is welcome to become a member of this national service fraternity if he has previously been a member of the Boy Scouts of America. Epsilon Iota has had the honor of installing each chapter of the fraternity in Mississippi.

On the campus at State, the four major fields of activity are: service to the student body and faculty; service to youth and the community; service to members and the fraternity; and service to the nation as participating citizens.

It is the purpose of Tau Beta Pi to mark in a fitting manner those who have conferred honor upon their alma mater by distinguished scholarship and exemplary character as undergraduates in engineering, or by their attainments as alumni in the field of engineering.

This school year, on December 15, 1953, the Alpha Chapter of Mississippi here at State College celebrated its 25th anniversary. In commemoration, this chapter elected a number of past graduates, who have proved to be exceptionally well-rounded engineers, to membership.

Tau Beta Pi also affords the engineering student fellowship and an opportunity to be of service to his school.

Alpha Tau Alpha is a national honorary-professional Agricultural Education Fraternity designed to promote agricultural leadership among its members.

To be eligible for membership an individual must be majoring in Agricultural Education and have a two point average the semester preceding his initiation. He must show an interest in agriculture and possess leadership qualities.

All members strive to bring about a better understanding between farmers through the teaching of vocational agriculture in the rural schools of our country.

Yes, Block and Bridle! A name that has constantly been handed down through tradition and heritage by hardworking young livestock men for many, many years, Mississippi State College is proud of Block and Bridle, its honors, and its objectives. Last year the Block and Bridle Yearbook was first in the nation. The Animal Husbandry Service Building, perhaps the finest in the South, was erected after much time and effort spent by Block and Bridle members and livestock men throughout Mississippi.

Each year the Block and Bridle sponsors a Little International Showmanship Contest and the Livestock Judging Team.

Objectives of the Block and Bridle are as follows: To promote a higher scholastic standard among the students of animal husbandry; to promote animal husbandry work in colleges and universities; to bring about a closer relationship among the men pursuing some phase of animal husbandry as a profession.

Animal Husbandry pastures viewed by breeders and herdsmen on tour.

Trophies awarded to the Mississippi State College Livestock Judging Team.

The Mississippi State division of the Society for the Advancement of Management is a student affiliate of the National S.A.M. and operates through the Birmingham Chapter.

The purpose of S.A.M. is to further interest in the Industrial Management field by conducting tours in Industries throughout the South and having as guest speakers prominent representatives of Industries.

S.A.M. is a rapidly growing organization on the campus, and a bright future is foreseen for the group.

The Gamma Delta Chapter of Delta Sigma Pi was founded on the campus of Mississippi State in March, 1949. Delta Sigma Pi is an international fraternity with over 83 chapters in the schools of business and commerce. The fraternity was organized "to foster the study of business in universities; to encourage scholarship, social activity, and the association of students for their mutual advancement by research and practice; to promote a closer affiliation between the commercial world and the students of commerce and to further a higher standard of commercial ethics and culture and the civic and commercial welfare of the community." Delta Sigma Pi is a professional fraternity in the field of business and commerce.

The Mississippi State College Marketing Club, composed of students majoring in marketing in the School of Business and Industry, has as its primary objective the advancement of science in marketing. It was organized for the purpose of fostering scientific study and research in the field of marketing through better understanding and appreciation of special problems of the field. The members of the club learn of new employment opportunities through a series of field trips each semester to various cities. By attending these trips and hearing various informed speakers each semester, the students are able to coordinate marketing theory with marketing problems of practical importance.

The Mississippi State College student branch of the American Society of Mechanical Engineers was established in 1928 and is composed of students regularly enrolled under a mechanical engineering curriculum at Mississippi State College. The purpose of the society is to broaden the student's acquaintance with the practical side of the practice of the mechanical engineering.

Guest speakers, field trips, and an annual regional conference enable the student to become acquainted with his colleagues and to meet graduate mechanical engineers.

The American Institute of Electrical Engineers is the professional organization of all electrical engineers regardless of their field of specialization. Its object is "the advancement of the theory and practice of Electrical Engineering and the Allied Arts and Sciences and the maintenance of a high professional standing among its members." Since its founding in 1884, it has grown to be the largest engineering society in the world with over 50,000 members, 100 sections and 132 student branches in the leading colleges of the United States, Canada and Mexico. The Mississippi State College Branch was founded in 1925.

Student chapters of the American Society of Civil Engineers are established in engineering schools with an approved curricula in civil engineering. The chapter gives the students the opportunity to make professional contacts and associations which are invaluable to the practicing engineer. The chapter also gives the students the opportunity to hold office, secure outside speakers and extend hospitality while they are on the campus. The students prepare technical papers which may be presented at A.S.C.E. Conventions, where they are discussed. The chapter takes three field trips each year, visiting projects of civil engineering interest.

The Chemical Engineers' Club, organized in April, 1949, is composed of student chemical engineers and chemists. The purpose of this organization is to promote professional development of its members through its programs and activities.

Meeting programs ordinarily consist of student presentation of selected technical subjects, visiting speakers, and industrial movies.

Annually, the club sponsors a field trip, giving the members an opportunity to visit plants.

Through the club socials, members are provided with an excellent opportunity to have wholesome fellowship with others who are interested in the same field of science.

Free Masonry is a speculative and moral science founded on an operative art. Its principles include the purest precepts of morality, including the Cardinal Virtues of Masonry, temperance, fortitude, prudence, and justice. These governing laws are undergirded by belief in God and immortality of the soul. Membership in the Square and Compass Club is restricted to those students who have received at least the First Masonic Degree. The purposes of the organization are fellowship and instruction in Masonry. The activities of the club are coordinated with those of Albert Lodge, No. 89, Starkville, James N. McKell, W.M.

John Garst, George Hooks, Nancy Cammack, and Al Dugard.

The 1953-54 Famous Maroon Band, consisting of one hundred pieces, moved into the new Band Hall at the first of the year. This is the best facility that any band has ever had at Mississippi State.

This year the band made three football trips. They were to Alabama, Jackson, and New Orleans. They also made a spring tour which consisted of concerts in Clarksdale, Greenville, Indianola, Greenwood, Belzoni, Jackson, and Canton High Schools. For the first time in its history, the Maroon Band gave a concert in the Jackson City Auditorium.

On February 20, 1954, the first Band Material Clinic ever put on by a college in Mississippi was held on the State campus. This consisted of the Maroon Band playing new music submitted by publishers for band directors and interested students from over the state.

VIRGINIA CARMICHAEL	*Secretary*
DAVID SAUNDERS	*Social Chairman*
JANIE GILES	*Reporter*
MR. E. D. McKISSACK	*Director*
MRS. E. D. McKISSACK	*Accompanist*

The Mississippi State College Choir is open to students from all undergraduate departments of the College. The purpose of the organization is to make music participation an integral part of the life of the student. The requirements for membership in the Choir are the ability to sing on pitch, loyalty to the organization, and a desire to sing standard sacred and secular choral literature.

The Choir is composed of sixty vocalists from the student body and makes frequent public appearances both on and off the campus, under the direction of Mr. E. D. McKissack. Mrs. E. D. McKissack is accompanist.

Each year the Choir takes two tours. For the annual Fall Tour this year, the Choir performed Handel's immortal "The Messiah," at Macon, Philadelphia, Durant, Belzoni, Sunflower Junior College, and State College. This production was tape recorded and broadcast over a six-state chain of radio stations.

In April, the Choir took its Spring tour. Among the towns visited were Macon, Columbus, Scooba, Meridian, Laurel, Ellisville, Wiggings, Perkinston Junior College, Gulfport, Biloxi, Pascagoula, and other cities of the Gulf Coast area.

Regular members of the local Baptist church, Sunday School, Training Union, Brotherhood, and those who participate in any of the Baptist activities on the campus are members of the Baptist Student Union of Mississippi State College. The purpose of the movement is to serve as a link between the church and the students in training them for Christian leadership in the church and in society.

The Executive Council is composed of those students elected by the Baptist student body. Each member of the council trys to lead a definite phase of student work.

The Baptist Student Union promotes a noonday meditation period each day, prayermates, and many other activities which strengthen one's Christian growth. They also sponsor an annual Sweetheart Banquet and many other socials throughout the year.

Any person in the campus community may become a member of the Wesley Foundation by subscribing to the following pledge and participating in its program:

"I Purpose: To develop my personal life according to Christian Principles; To work for a campus Christian Community at Mississippi State College; To participate in the World Christian Fellowship."

The Wesley Foundation is the Methodist Church at work on the campus and makes its greatest appeal to members of the Methodist Church. It provides a "church home" away from home, supplements the social life of its members, provides leadership training, provides opportunities for faculty-student associations, and seeks to provide an integrating philosophy of life through personal counseling and group experiences.

The Young Men's Christian Association, oldest organization at Mississippi State College, was established by State's first president, General Stephen D. Lee, in 1882. Since that date it has functioned as an integral part of student life and promoted a program designed to meet many of the social and spiritual needs of students.

The program of the Y.M.C.A. is developed and promoted by the Cabinet. Administrative policies are determined by the faculty-student Advisory Board and administered by the employed staff. Program and building privileges are extended to all regularly enrolled students and to faculty and staff members of the College.

In Appreciation

It is not the guns or armament
Or the money they can pay,
It's the close co-operation
That makes them win the day.
It is not the individual
Or the army as a whole,
But the everlastin' teamwork
Of every bloomin' soul.

J. Mason Knox

Perhaps it is rather inappropriate to compare publishing a college yearbook with winning a war, but the value of cooperation and teamwork is much the same.

To list names of all those who helped prepare the 1954 REVEILLE is impossible. We are too deeply indebted to some individuals and groups, however, to omit them entirely.

First, we recognize and thank the faculty, administration, and student body, including all organizations, fraternities, and sororities, who responded so faithfully to the duties that were necessary to make the REVEILLE possible.

Second, we extend our deepest thanks to "Papa Jim" Pruitt and the personnel of Pruitt's Studio for the fine job they did in making the pictures for the 1954 REVEILLE and for their untiring efforts to help get the yearbook out on time.

Third, to the many people who had one of the largest parts in making the book possible—our advertisers, we say "thanks."

Fourth, to Mr. Bob Fearber of the Alabama Engraving Company, and to Mr. Johnny Long, of Bowen, Long, and Young, Publishers, we express our appreciation for the many untiring hours of work and their directed efforts.

Finally, we thank the members of the annual staff of the 1954 REVEILLE. Without their help, the annual would not have been possible and we are deeply indebted to each and every one of them. Theirs was the job without glory and to them, in profound gratitude, we say "Thanks, for a job well done."

Respectfully,
JOHNNY SPRUILL, Editor
